

# Velocity of Global E-Invoicing Initiatives Accelerates

It started as legislation in a single country designed to combat corporate tax evasion. Now, e-invoicing and similar corporate tax mandates are spreading rapidly across the globe. Touching dozens of countries, this timeline illustrates the challenges today's global companies face. In sum:

The results tell the story behind this acceleration.

While tax authorities are increasingly turning to software and electronic detection of indirect tax errors, hidden within these requirements are opportunities to streamline and automate processes, ultimately reducing costs. Contact Invoiceware International to learn how.
